

Olympic Hotel

In May 2008, The Olympic Hotel in Preston installed 9 IBM Point of Sale Touch Screen terminals in our sports bar, bistro, gaming room and bottle shop. After evaluating many of the POS systems on the market I found OrderMate to be the most professional company to deal with and also the only company willing to develop software in conjunction with the Olympic Hotel to accommodate my business needs. I found the training and technical support delivered by OrderMate prior to and following installation to be pivotal in minimising any disruptions to my business. My managers have the confidence to make a phone call to the support team 24 hours a day, and have a competent person talk them through any issues that may arise. I have no hesitation in recommending the OrderMate Point Of Sale system.

Olympic Hotel

partnering with...

OrderMate

The Olympic Hotel is a Melbourne icon and has a long rich history as one of the city's premier drinking and bistro venues for the family. It encompasses a large Bistro area for well over 200 patrons, a separate sports bar, gaming bar with pokies, and of course a large drive-thru bottle shop. The OrderMate Stock Control module is also fully utilised to control the large amounts of stock received and moved between the different areas of the business. There is also a remote offsite Administration office which assists with the day to day management of the business.

Olympic Hotel 31 Albert Street
Preston VIC 3072 Ph 03 9484 4978

Features/Benefits

Quick Sale

Transact customers easily who pay for drinks up at the bar.

Live Stock Control

Receive goods and transfer stock between different areas. Also, see all stock levels in the venue LIVE.

Remote Administration

Receive invoicing from suppliers at head office and process in OrderMate remotely.

Bar code Scanning

Ideal for bottle shop and bar coded items.

Price Levels

Change pricing automatically by time, or a defined triggered event – you choose as many as you want.

Table/Bar Meal Ordering

Either run Table accounts then pay, or utilise OrderMate's advanced Bistro mode.
