

The Groove Train

“ Since changing all my POS systems over to OrderMate, I now realise what I was missing out on. In business we never stop learning and as my businesses expand and grow, OrderMate continues to grow with them. Their support team is fantastic and they have become part of my team and for whichever site I setup I know I can rely on them 24/7. One of the biggest advantages for my businesses is the improved efficiency for the back of house administration. My accounts staff can remotely dial into any site and extract whatever information they require – all in real-time. My return on investment has come from this, as well as the tightened security OrderMate offers me in each of my sites. From my home or office I can look into each site and watch what staff are doing at any time of the day. Having used many POS systems in the market over many years – I have not yet found a better value for money POS system. The product and the people behind it continue to surpass my expectations and my entire team of over 200 staff and managers across 13 venues all have only great things to say about OrderMate. ”

ROCKY VENEZIANO The Groove Trains & Veneziano Coffee

Ordermate POS Testimonial

The Groove Train

partnering with...

OrderMate

The Groove Train offers something for everyone. With now over 10 locations across Victoria and Queensland (and still growing), Rocky Veneziano and his team continue of their winning formula of great food and of course coffee. The management team behind the Groove Train group are today working closely with OrderMate to take the business to the next level which is with OrderMate Business Central – the head office solution to integrate all sites for simple reporting, menu management and a national reward scheme for customers.

The Groove Train is now a national brand and continuing to benefit from the many features of OrderMate and attribute their winning formula to their systems, procedures and of course people & suppliers on board.
